GENERAL INFO

- METHOD OF SALE** The main priority of the farm is to grow food for our on-site restaurant. We also sell to: Grow Food Carolina, CSA style “grab bags”, farmers markets and local restaurants.
- METHOD/TIME OF CONTACT** Text or Email
- PRODUCTS** Carrots, beets, turnips, radishes, greens, tomatoes, peppers, eggplant, beans, cucumbers, peas, cauliflower, broccoli, chard, kohlrabi, fennel, herbs, micro-greens, flowers
- PRODUCTION PRACTICES** Certified USDA Organic, crop rotation, cover cropping, companion planting, pollinator habitats, bee sanctuary, composting, IPM, drip irrigation, everything starts from seed
- DESCRIPTION** Middleton Place Organic Farm provides produce to our on-site restaurant and offers tours & workshops. A few times a year we offer a farm to table dinner event on the farm
- CSA INFO** No formal CSA, but occasionally offer grab bags. CSA style bags are usually \$20 and available for pickup at the Middleton Place Garden. Availability announced via email

ADDITIONAL QUESTIONS

HOW DID YOU GET INTO THIS TYPE OF WORK? (EX. BACKGROUND)

I wanted to connect the dots from the dishes I was serving at restaurants, back to the farms they came from. I first volunteered at farms, then an internship on Jerimiah Goat Dairy on Johns Island, which then led me to Middleton Place

WHAT ARE YOUR MAIN GOALS OR THE FOCAL POINT OF YOUR OPERATION?

Aside from our main goal of growing for our on-site restaurant, we strive to educate future farmers in the Growing New Farmers Program.

WHAT CERTIFICATIONS DOES YOUR FARM HAVE OR ARE YOU WORKING TOWARDS? (EX. CSA, GAP, ORGANIC, ETC.)

Organic certification and SC grown certified. We would like to become GAP certified.

WHAT WOULD A TYPICAL SCHEDULE FOR YOUR APPRENTICE BE? (DAYS/TIMES)

Although negotiable, ideal days would be Tuesday-Friday, 8-12, as needed.

WHAT TOPICS WOULD YOU CONSIDER TO BE YOUR STRENGTHS?

Production, cover cropping, pest ID, crop rotation, succession plating, fertilizer selection and application.

WHAT DO YOU THINK THE FUTURE HOLDS FOR YOUR FARM?

I plan on expanding our general production area and possibly building a greenhouse. We are also adding medicinal and culinary herbs, microgreen production, beekeeping and wild foraging to our focus.
