ADDITIONAL QUESTIONS

HOW DID YOU GET INTO THIS TYPE OF WORK? (EX. BACKGROUND)

I started farming after volunteering in Salisbury TN. I caught the bug four years ago.

WHAT ARE YOUR MAIN GOALS OR THE FOCAL POINT OF YOUR OPERATION?

We believe in local sustainable agriculture. We raise animals and grow produce with no hormones, medications, antibiotics, or pesticides. We are passionate about helping people rebuild a relationship with their food and where it comes from

WHAT CERTIFICATIONS DOES YOUR FARM HAVE OR ARE YOU WORKING TOWARDS? (EX. CSA, GAP, ORGANIC, ETC.)

None.

WHAT WOULD A TYPICAL SCHEDULE FOR YOUR APPRENTICE BE? (DAYS/TIMES)

It would be super flexible. Typically start at about 6am and go to about 4pm and anywhere in the middle. I absolutely need my apprentice to be able to commute and have transportation since we are far from Charleston.

WHAT TOPICS WOULD YOU CONSIDER TO BE YOUR STRENGTHS?

Retail sales, pasture, poultry, forest raised pigs, and egg production.

WHAT DO YOU THINK THE FUTURE HOLDS FOR YOUR FARM?

To continue to increase sustainability on multiple levels.
